Aliens went to the Earth

Today, some aliens took a trip to the Earth for the first time. They clapped and cheered together. They were very excited, but also worried.

Their teacher told them how they should behave on the Earth. The teacher said, " You should sit properly in the restaurant. You can't slurp and you should always talk politely to the waiter and waitress. You should line up and wait patiently at the bus stop. You shouldn't play games on the street. You should use your headphones when you listen to music on the train. In the cinema, you shouldn't record the film..."

"Oh my god! There are so many rules, I don't like the Earth," shouted the aliens.

But after they arrived, they went to a zoo and looked at the animals. They were glad to get along with those cute animals.

At last, they took the spaceship back to their home. They enjoyed their trip very much.
