My Robot Helper

I have a robot helper at home. Its name is Curry. Curry is short and small. It has four big hands and two long legs.

It does housework every day. It throws the garbage in the kitchen out. It also tidies the bookshelf in my bedroom. It cleans the fan in the living room once a month.

Curry doesn't walk the dog because it is scared of dogs.

I like Curry. It is helpful and hard-working. It is my good helper at home.
