# Save the Earth

Dr Panda is so happy to receive a message from Chiu-ki, who tells us how we can save the Earth.

Our Earth is dirty. We should save it.

If we do not stop throwing rubbish to the sea, it will be dirty. We should throw rubbish into rubbish bins. We should keep places clean.

If we do not stop cutting down trees, animals will lose their homes and die. We should plant more trees. And we should use less paper. Then the Earth will be beautiful.

If we leave taps on, we will waste a lot of water. We should save water by **fixing dripping** taps. Everyone should save water.

No one wants to live in a dirty world. Let's think of ways to save the Earth. Everyone can help! (text edited)

### Join the Smarties!

Would you like to be part of the Smarties? Fill in the form on p 8, attach your recent photo to it and send it to us (see p 8 for our address). Please state "Smarties' Power English : Join the Smarties" on the envelope.
